Monthly LIC update - top picks

This report contains a LIC sector update and performance review of our coverage list for the month of July 2019. The table on page two provides an update of the overall sector, as at 30 Aug 2019, with our estimated current NTAs derived from our model portfolios for the LICs.

Top picks: Our top picks refer to preferred exposures within each sector based on numerous quantitative and qualitative factors. However, they should not be treated as official stock recommendations but merely as a guide to where we would apportion funds at this particular point in time.

Traditional LICs: On average, traditional LICs (+5.0%) outperformed the All Ordinaries Accumulation Index (XAOAI) by 2.1% in July (on a TSR basis) in the lead up to ex-dividend dates. Average August performance of -2.1% (TSR) was broadly line with the XAOAI despite a majority of traditional LICs trading exdividend. With dividend run-up trading now predominately washed through, we believe trading levels should revert to more normalised averages. Top picks AFIC (AFI) and Diversified United Investment (DUI) are currently trading at estimated 2.8% and 5.4% discounts to NTA respectively.

Large capitalisation: Providing actively managed exposure to the ASX 200 with key sectors including financials (23.5%) and materials (21.1%), WAM Leaders (WLE) is a top pick, trading at an estimated 7.5% discount to NTA. We believe short-term risk is skewed to the upside in the lead up to WLE's exdividend date (11-Oct: 3cps final dividend). Elsewhere, although the underlying NTA performance of OPH lagged during Aug-19 due to weakness among top holdings including A2M (-20.9%) and CWY (-14.5%), we believe the current estimated discount of 7.3% is an attractive entry point given OPH's long-term track record of outperformance (22.1% pa since inception).

Small capitalisation: WAM Microcap (WMI) is our top pick. WMI has performed strongly in FY20 YTD, up 11.9% (TSR). This outperformance has been driven by underlying NTA growth as well a 2.25cps special dividend (4.5cps final). As previously discussed, although difficult to forecast, we believe WMI is currently trading at a slight discount to NTA. Risk of further discount capture remains to the upside, in our view, as we note WMI has previously traded at a premium to NTA. Elsewhere, providing exposure to a diversified portfolio of small cap and unlisted securities, ACQ is a top pick. It is currently trading at an estimated 18.5% discount to NTA.

International: Geopolitical tension continues to influence global markets, with the MSCI World Index (MSCI) down 2.1% in Aug-19. This was partially offset by the continued deprecation of the AUDUSD (-1.6% in Aug). Our top pick for exposure to the US is MFF Capital Investments (MFF), currently trading at an estimated 6.6% discount to NTA. Our top pick for broad-based global exposure is PM Capital Global Opportunities Fund (PGF), trading at an estimated 14.5% discount to NTA.

Specialist: Hearts and Minds (HM1) is our top pick. It provides exposure to the highest conviction ideas (domestic and global) from a number of Australia's leading investment managers (many of whom are not overly accessible to retail investors). HM1 has performed strongly since inception (Nov-18), up 16.9% (TSR). We estimate HM1 is currently trading at a 1.0% premium to NTA.
